## A great sleep starts here.

Buying a mattress is as simple as finding the comfort level that feels right for you. We've ensured that all 3 mattresses have the same spring system with the same consistent level of support — all you have to do is choose your comfort preference.

### FIRM comfort

A combination of high density foam and tighter quilting provides the firmest feel.

### MEDIUM comfort

A mix of firm and soft layers combine with a pillow top to provide a medium comfort level.

### PLUSH comfort

Ultra luxurious comfort comes in a thicker pillow top providing the softest option available.
